

# ACEpc Installing netedit with NetSetGo disk

Using a NetSetGo disk to reformat an ACEpc hard drive and install all the correct software to enable IP address networking

 Difficulty Very easy

 Duration 5 minute(s)

## Contents

Introduction

Items

Step 1 - Insert disk (Power off)

Step 2 - Power On

Step 3 - Format Hard Drive and copy Zip

Step 4 - Run NetEdit from command prompt

Comments

## Introduction

This procedure will completely overwrite any data on the hard drive of the ACEpc.

This is not a problem on a flowline where the data resides on the main MH hard drive in a shared directory c:\saw.

If this process is to be carried out on a standalone saw or router, make sure the data is backed up first.

## Items

 NetSetGo Floppy Disk

## Step 1 - Insert disk (Power off)

Power off the machine and insert the NetSetGo disk

## Step 2 - Power On

Switching on with the floppy disk in will boot from the floppy drive instead of the hard drive

---

## Step 3 - Format Hard Drive and copy Zip

The PC will boot from the floppy disk and you will be prompted

Proceed with format  
Press Y

You will then be prompted

Volume label [enter]  
Press Enter

This will format the hard drive and then copy all necessary network software as a ZIP file to the hard drive and then inflate it.

---

## Step 4 - Run NetEdit from command prompt

Follow the procedure for Setting IP address using NetEdit
