How to backup the data on your Autocut

Difficulty Very easy

Ouration 1 minute(s)

Contents

Introduction Step 1 - Press Backup Step 2 - Select Location Step 3 - Click OK Comments

Introduction

Backing up is vital to ensure your data is safe in case there is a failure of the PC or Hard Disk Drive

Step 1 - Press Backup

Through the winSaw software press '[F11] backup'

Step 2 - Select Location

You will now be asked where you want the put the backup. Ideally, this backup should be on a network directory or a USB stick

...If you backup to the C:\drive, all data will be lost if there is a hard drive failure
