 Duration **10 minute(s)**

Contents

- Step 1 - Close winSaw
- Step 2 - Allow Hidden Items to be shown
- Step 3 - Delete temp Appdata
- Step 4 - Delete Old Batches
- Comments

Step 1 - Close winSaw

Step 2 - Allow Hidden Items to be shown

Click the checkbox

Step 3 - Delete temp Appdata

User (Stuga) ----> 'Appdata' ----> 'Local' ----> 'Temp' - Delete everything within the 'temp' folder.

Step 4 - Delete Old Batches

This PC ----> 'Saw' ----> 'Archives' ----> Delete the .449 and .zeb files within this folder - this is removing the old batches
